

Do you get Value from your Health Fund?

Every Dollar counts, so make sure you are getting the best value you can from your Health Fund Investment.

If your Health Fund runs it's benefits scheme to the end of the Financial Year (30th June), make sure you have received the most value from your Health Fund Payments.

We advise all Patients to make the most of this period to get treatment done in this financial year to optimise your benefits before the end of the financial year, and then commence the new financial year with recharged entitlements.

Did you also know that some Health Funds pay a lesser benefit to you if you don't keep up regular Oral Health Check Ups and Cleans? You will find that your out of pocket expenses may increase if you don't regularly have check-ups.

If you're unsure if your fund has a Financial or Calendar Year roll over, give them a call to ensure you get the best value you can from your Health Investment.

OZOSPA®

Top Teeth Cleaning Tips

Here are some top tips to bear in mind when looking after your teeth:

- Always choose a soft bristle toothbrush rather than a hard or medium brush.
- Clean your teeth in the morning after breakfast and before you go to bed at night.
- Replace both manual and electric toothbrush heads every three months.
- Floss to remove plaque from between your teeth where your toothbrush cannot reach.
- Cleaning your tongue removes plaque that is full of bacteria and can cause bad breath.

* For approved Patients. Minimum spend and set up fee apply.
